### RENEWABLE ENERGY SUPPLY CHAIN LOCALIZATION AND DISTRIBUTED GENERATION FRAMEWORK REPDO SUPPLIERS SURVEY

RIYADH November 5<sup>th</sup>, 2017

مكتب تطوير مشاريع الطاقة المتجددة

Renewable Energy Project Development Office

# We have distributed the survey to 630 suppliers and received 107 responses

#### Questionnaire on REPDO registered suppliers

#### Comments

- We have prepared a online questionnaire distributed to both global companies and suppliers registered in the REPDO portal (local and global) and received 107 responses
- The companies registered as OEMs, Producers and Developers in the REPDO procurement portal that are located in the KSA
- The survey consisted of 16 questions and it analyzes 3 major areas:
  - Company profile
  - Company value chain positioning
  - Investor perspective on NREP program

Source: REPDO team

### Suppliers are positive about REPDO and the NREP opportunities; As an area for improvement they expect more assistance

#### Suppliers online survey N = 107

#### Survey assessment

#### Key outcomes from suppliers survey

**92%** believe REPDO program is well prepared

**95%** believe opportunities awarded by NREP program are high

**58%** intend to focus on Solar opportunities

**50%** expect more assistance on the appropriate entry strategy, government approvals and loans

**56%** see as potential barriers unclear regulations, strict criteria & high investment level

#### Source: REPDO Qualified Suppliers Survey n=107

## The survey gathered views of 107 suppliers - majority of them are companies with large revenue and long presence on the market

#### **Overview of respondents**

### CONFIDENTIAL List of 107 companies that participated in the survey

# 92% of the suppliers assess REPDO program positively, 50% expect more assistance on the entry strategy, government approvals and loans

# 95% of respondents recognize NREP as an important opportunity, 58% of them want to participate by operating in solar technologies

# 42% of the respondents operate in power generation, installation and construction industry and 69% want to focus on services in NREP program

## However unlike in general value chain question in the detailed one suppliers were more willing to indicate on manufacturing as their focus

#### Detailed value chain participation

# 73% of suppliers assess their RES capabilities high due to relationships or partners in the industry therefore 77% plans to enter via JV or alliance

### 54% expect diversification of operations, increase of revenue & profits; 58% see as barriers regulations, strict criteria & unsatisfactory returns

### وزارة الطاقة والصناعة والثروة المعدنية المملكة العربية السعودية
